The Quinisext Council - an attempt to strengthen unity of the Church

Stefan ZELIKOVIC (Serninary of St Sava and the Faculty of Orthodox Theology in Belgrade)

The Canons, through the history of the Church, were de facto brought with the tendency to have de jure power, but this sometimes did not happen, and usually the validity of one council would be reflected through the decisions in the life of the western bishops were not Trullo did not play a significant ecumenical character, since there without the papal legates, and it was the Second Ecumenical a different situation here, problems between the East and the occasion that they float to context, neither the mood in the into account. The atmosphere did not at all diminish the self- of that Apostolic Chair in the The descent of Justinian’s legacy surely, that the universality of be no longer relevant. Along Roman Church, it has already foundation in the jurisdiction (Constantinople had territorially authority). The East, which from the time of the emperor Heraclius was no longer using even officially Latin, has become a stranger in the eyes of the West, and the West in the eyes of the East continued to be still inferior.

Keywords: Church, Council, Trullo, Constantinople, Rome.
